paying the expenses of my journey, I had but five francs left. Such, however, was the force of habit, that I could scarcely believed myself legitimately possessed of more than my little annuity, which was not yet due.

"Dare I ask," I inquired, with a blush almost of shame on my cheeks; "can I, without indiscretion, beg you to advance me for a moment a small sum, which

The fifty golden Napoleons gave me an extraordinary impulse; in fact, I stood in great need of them. Possessor of twenty thousand francs of income, I was obliged, on my arrival in Paris, to leave my trunk at the office of the diligence, not having the means of paying for a lodging. I now hastened to redeem it, and afterward took a coach to the first hotel pointed out to me, where I established myself in a the boat. handsome apartment, and put on my suit of mourning. I arrived with so much punctuality at M. Bergeret's, that he had scarcely had time to finish telling my history to his wife. She, however, had heard enough to cause overheard whispered remarks made upon me, modest bearing, great skill, splendid business talents. Thus, when M. Bergeret entreated me to regard his house as my own, I promised willingly, although I could profit but little by the invitation. Madame Hugues would have me to dine, when I met with other introductions and invitations. I was taken to the theater and to parties. Now that I was rich, I could almost have confined my expenses to some few presents and fees.

Meantime my two friends, George and Albert, had heard with alarm of the success of their report, the truth of which they dared no longer deny. They had been frightened by my departure for Paris, which all the world attributed to difficulties in the liquidation of my debts; and feared that I had suffered myself to be deceived by what was concerted between us merely as a

This is what I would wish you to say to those who talk of me."

I owe more than fortune to my singular situation, since it has assured me of a friend upon whom I may count in adversity, should it ever visit me. For another week I was the subject of conversation. Protection. When speculation has run riot—when nominal values have been unduly inflated-when debts have been contracted beyond the power of prompt payment, if not of but as we said before, whether this respectable and obany payment, a reaction must come, just as surely as the liging comet has anything to do with it or not, although observation might have taught every one who has any senses at all and any reasoning powers to combine the facts which these senses report.

We have had a crisis-not the first, by any means and, we fear, not the last. At the close of each of these periodical visitations, we hear the cry for protectionfor high duties-for discrimination in favor of certain interests, at the expense of all other interests. We hear it now. It resounds through Pennsylvania and the States North and East of that.

Now "protection." as understood by those who clamor for it, is partial in its operation. It means protection for manufacturers. It means higher prices for their goods that all other classes must buy. Is the agricultural interest of the country so rich and flourishing that it can afford to be thus taxed? Even now, under the low tariff of the last Congress, consumption has fallen off, indicating a want of means to purchase-will raising the price help matters?

But if the farmers would consent to pay higher prices to the manufacturers, the manufacturers would pay them higher prices. Would they? and if they did, what then? One thing would balance the other. But they would not. Everybody knows that, with a prosperous agriculture, we could and would export produce. Everybody knows that a good crop, with a good return for it, would go far towards restoring things to a healthy position. Without a foreign market the farmer would be at the mercy of the manufacturer.

It is not that imports are now large, that interferes with domestic manufactures. Imports are small. It is that consumption of goods is reduced for the time being. Is this to be remedied by imposing fresh burdens on the

"Prince Theodore was one of the murderers of Peter III, and Prince John (his brother,) one of the most distinguished and praiseworthy men in his times, married the Princess Catharine of Holstein-Beck, a near relation of Peter III." Or this under the head of the Counts Orloff-" The Count Alexis, one of the murderers of Peter III, who had the chief command at the famous battle of Chesme," and looked on while the Turkish fleet was beaten by the Englishman, Elphinston, and the Scotchman, Greig, officers in the Russian service." Or this of the Counts Zouboff-" The Counte Nicholas, one of the murderers of Paul, struck that unfortunate Prince the last blow, which split his temple." And the strangest traits in this Libro d'Oro are recent, belonging to strictly modern times and to our own day. In the introduction the translator remarks that of the four ages of nations—infancy, youth, manhood and old age, Russia has been without the two first as well as the last. During four great periods of Russian history, from 862 to 1462, there was no Russia at all," only the historical peography of the territories which she now possesses exhibits an unsettled scene of wars, like the middle ages of the rest of Europe. The commencement of her imperial existence, recent as it is, has been marked by vicissitudes which almost belong to a præ-historic period-Constitutions made and forgotten; Princes murdered, their own sons waiting in a neighboring chamber for formal notice of that official proceeding. The translator likens Russia to France, the Russians are called "the French of the North," and he looks forward to a close alliance between France and Russia. Meanwhile the nobles have become more civilized than the peasantry or the court. A literature, encouraged and suppressed by turns, makes the sacrificing devotion with which you are trying to rebuild it, have awakened in my mind the strongest delish Radicals under a Georgian regime, or French philish Radicals under a Georgian regime, or French phi-losophers under a Capet rule; one of the most out-spoker men being Cichaiadieff, an officer of Huzzars! And now we see a Court competing with a peerage for the have expressed this sympathy at an earlier day; but I am now, by the blessing of Heaven, so far recovered as to be able to lecture again, and it will give me great the peerage of Dolgorouky throws so much light on the peerage of Dolgorouky throws so much light on the peerage of Dolgorouky throws so much light on the peerage of Dolgorouky throws so much light on the peerage of Dolgorouky throws so much light on the peerage of Dolgorouky throws so much light on the peerage of Dolgorouky throws so much light we to be able to lecture again, and it will give me great the peerage of Dolgorouky throws so much light on the pleasure to read one of my lectures, perhaps the one on Rome, at any time and place within the next two weeks, the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding your leading to the proceeds to be added to the fund for rebuilding to the proceeds to be added to the fund for rebuilding to the proceeds to be added to the fund for rebuilding to the proceeds to be added to the fund for rebuilding to the proceeds to be added to the fund for rebuilding to the proceeds to the proceeds to be added to the fund fo politics of Russia, what singular disclosures might we to write one is treated as an act of poaching.

GOLD IN CALIFORNIA.—The Moses Taylor at New Lottery. The ticket was numbered 3228. Mr. Mails, only a day or two before the arrival of the news, disposed of five-eighths of his interest in the ticket, and therefore he himself holds only three eighths, or equal to \$37,500. The holders of the remaining five-eighths are all poor people and laborers, either German or French.

De Reviere has taken to the desk and is lecturing on "Love." He should add a chapter on its rascality, using himself as an illustration.

wearing apparel, to go where Gentlemen's wear is kept exclusively. We don't believe in having "too many irons in the fire." Let the Ladies keep Ladies' Hats, and sell them; and let us masculines keep Men's Wearing Apparel. That's our idea of trade.

We know there is no house where a man may get Clothing of all kinds for outer or under wear, so reliable as at BALDWIN'S. He sells for "Gent's Wear Exclusively," (see his advertisement to-day,) and devotes all his attention o his business, enabling him to give more satisfaction than hose who keep mixed stocks. Our advice is, if you want articles for your wives or your daughters, go to the Ladies' to a clothing and Merchant Tailoring Establishment; and we know of no house to whom we could more confidently recommend our friends than to 38 Market street. #### THE GREAT ENGLISH REMEDY. SIR JAMES CLARKE'S

CELEBRATED FEMALE PILLS. Prepared from a prescription of Sir J. Clarke, M. D. Physician Extraordinary to the Queen.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on. TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits. These Pills should not be taken by females during the first

three months of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe. In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or

anything hurtful to the constitution. Full directions in the pamphlet around each package, which should be carefully preserved.

## MARRIED.

On the 5th inst., at the residence of Wm. L. Jacobs, Esq., in this place, by Rev. Dr. Deems, Dr. JOHN A. McKOY, of Harnett Co., to Miss CHRISTIANA V., daughter of HIRAM W. FOY, Esq., of Columbus. On the evening of the 5th, in the Front St. Methodist Epi copal Church, by the Rev. Dr. Deems, Mr. ROBERT DAVID-SON to Miss MAGNOLIA C. LEWIS, all of Wilmington.

DIED. At his residence, in Wilmington, on the 3d inst., in the 58th year of his age, ALEXANDER D. MOORE. At the close of life's pilgrimage ever stands the opened sepulchre to receive us, and in that "house appointed for all living," now rest the remains of him whose death is here announced. With arrested step and sorrowing heart, we pause for a moment in the shadow of the tomb to pay a brief tribute to the noble spirit that now, unfettered by the flesh has fled from us forever. Truly payer has the direct flesh, has fled from us forever. Truly, never has the Great Reaper gathered into his garner of death a purer heart than that whose pulsations are now hushed in the voiceless sepulchre. By all around him he was ever regarded with gy, and Hygen, that respect and admiration which his lofty elevation of character always commanded for him, while his many manly Quackenbos Unit virtues never failed to bind him by the strongest ties of af-fection to those who were admitted into the closer companionships of his life, and who could more distinctly discern the noble elements of his nature. Always urbane, modest and unobtrusive, alike in action and expression, yet no man ever exhibited more unquailing firmness in the assertion of the right, or unhesitating denunciation of what was wrong. Integrity, courtesy and chivalry, indeed, were cardinal features in his character, and, ever obeying their promptings, Bayard-like, he went through life "without fear and with-

But, while the severest analysis of his character would fail to discover ought that was sordid or grovelling, and while on every page of the volume of his life Truth and Honor were indellibly engraved, yet nowhere was that life so attractively presented as in the sanctuary of his home. In the bosom of that family which he loved so intensely, a far lovelier, if not higher, type of character was ever exhibited, and there alone could be clearly seen the tender and generous impulses of the guileless heart that beat within his bosom.

In that Speaker, "School Dialogues Clark's English Grammar, Willard's U. S. History, Parker & Watson's National Reader, 1, 2, 3, 4 and 5, Webster's Primary Dictionain that home there is now heard a wail of woe, which far more eloquently tells of the worth of the loved and the lost, than aught that we can say. With sympathizing sorrow, we turn from a scene too sacred for the gaze of the world, but not without the prayer that He whose ways are inscrutable, but whose judgments are right, may ever prove a father to the fatherless, and a husband to the widow.' To our departed friend whose mission of life has been accomplished, we now give a tearful and eternal adieu. helief that he has gone to the tomb with no enemy to forgive him, and trust that his freed spirit is now in that better land, "Where the forehead is starred

DR. O. PHELPS BROWN, the great curer of Conpurifier of the blood, and general tonic for the system it sumption, was for several years so badly afflicted by Dyspersia, that for a part of the time he was confined to his bed. He was evidently cured by a prescription furnished and carries off the products of unhealthy secretions, and him by a young clairvoint girl. This prescription, given him by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of Firs as of Dyspersia. ON BURNS. AN UNANSWERABLE ARGUMENT. A short and practical view of the subject .- H. H. Fry, Esq., Agent of the great Iron Mills, Safe Harbor, Lancaster county, Pa., who sells hundreds of bottles of "Prof. De Grath's Electric Oil," says the men are much exposed to Grath's Electric Oil," says the men are much exposed to fire, and often meet with accidents, but the "Electric Oil" takes all pain out and gives the hands no trouble. He orders another large lot, and says they are entirely out. It also acts promptly and efficiently in relieving frost bites and injuries of any kind, like sprains and wounds. It will relieve Piles more surely and pleasantly than any other thing, and it acts like a charm in cases of broken breast and sore intitled to more credit than the mere self-adulation of any medicine dealer or doctor in the world?

VINCENNES, IA., June 22, 1853. Prof. O. J. Wood: As you are about to manufacture and end your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it—that I have, for several years, been in the habit of using other Hair Restoratives, and that I in the nabit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture. fore, recommend its use to every one desirous of having a fine color and texture to hair. Respectfully yours, WILSON KING.

TURPENTINE.—The arrivals during the week just ended the low stage of the water courses, as little or none can be brought from above tideway. There has existed a moderate demand from distillers, and about all received has been taken by them at former quotations,-\$3 for virgin and yellow dip, and \$1 50 for hard. The week's transactions reach

only 1,685 bbls, as follows: Bbls. 296......\$3 00.....\$3 00......\$1 50 730..... 3 00..... 3 00... Friday . . . . . . 139...... 3 00...... 3 00....... Monday..... 244..... 3 00..... 3 00. 200...... 3 00..... 3 00......

has ruled quiet for this article, and under the advices re-

ceived from other markets, the price has gone down 2 cents. At the time of closing our report this morning, we learn that 45 cents is offered, and sellers holding higher. The transactions for the week have been light, and foot up only 1.425 bbls., viz :

125 " " 46 50 " " 45 Tuesday..... Wednesday..

Rosin.-The market has continued to rule quiet for all grades during the week ended to-day. The difficulty in shipping, caused by the scarcity of vessels, has kept buyers from operating, and the market closes in an unsettled condition. The only transactions we hear of are as follows: 200 bbls. Common at \$1 20 for large bbls.; 850 do. No. 2 at \$1 25 to \$1 50; and 187 do. No. 1 at prices ranging from \$2 25 to \$4 bbl., according to quality. In Pale nothing has been done; receipts meagre, and very little on market. We mote nominally at \$3 50 to \$5 \$ bbl.—the latter figure for a oright article.

TAR .- There has been an active demand existing for some time past, and the arrivals have been unusually small. None received since last review, and consequently we have no sales to report. Last sale was at \$1 70 \$ bbl., but higher figures could be readily obtained for a lot of any moment. BEEF CATTLE AND SHEEP-We have no change to report in either article. The receipts have been unusually small for some weeks past, and butchers have a very light supply on hand. We note a good demand existing, and a few droves

would sell readily at quotations. See table. BARRELS-The market for empty Spirits Turpentine barrels remains without material alteration. The stock in first hands has become very much reduced, owing to the meagre arrivals, and the larger portion offering on market are of inferior and ordinary quantity. We quote small sales of second hand ones during the week at \$1 70 each, for lots as they run, cash and 90 days. We quote selected at \$1 95 a

Corron—Under the favorable advices from abroad, the market here has ruled quite active, and nearly all offered has changed hands at full prices—closing firm, with a fair demand from buyers. The sales for the week are as follows:

Thursday 153 bales at 11 cents for ordinary, 12½ cents for middling, and 12½ cents for strict middling and middling fair; Friday, 90 do. at 12½ cents for low middling to middling fair; and Monday, 25 do. at 12½ cents for middling; and Thursday 26 do. at 12½ cents for strict to good middling.

Rice.—The sales last week and this have been at 11½ to reals 30 arrobe. Last sale reported, 20 casks from New York, yesterday at 11½ reals 30 arrobe. The stock is not heavy.

Lumber.—Last sales of W. P. Boards at \$27 25 to \$28 30 middling. Cargo of Pitch Prine, from Pensaco-less to \$2 25 to \$28 30 middling. The sales also to casks from New York, yesterday at 11½ reals 30 arrobe. Last sale reported, 20 casks from New York, yesterday at 11½ reals 30 arrobe. light. In moderate demand for retailing purposes, and we mote sales from the granaries at 90 a 95 cents P bushel. FISH—For Mullets we note a moderate demand existing, and only a small stock on market. A lot of 100 bbls. re-

ceived and sold from vessel at \$6 50 for pine bbls. We refer to our table for store prices of Mackerel and Herring. FLOUR-The market for State brands has ruled exceedingy dull for the past two or three weeks, and since the close of our last review prices have materially declined. The re-ceipts have been confined to a few small lots per railroad, and the supply in first hands is light, but in the absence of the usual demand from retailers, it may be considered fully sufficent for present purposes. We quote small transactions in sacks during the week at \$3 for superfine, \$9 98 lbs.; and in barrels at \$6 for superfine, and \$6 25 % bbl. for family-

closing inactive at these prices. GRAIN.-In this market we have nothing to report in the way of sales. No Corn or Oars have been received here for several weeks past, and the supply in dealers' hands is very light. We note a good demand for Corn, and a few cargoes would find quick sale. In the absence of transactions we cannot give a correct figure, and therefore quote nominally at 75 cents p bushel.——PEAS.—Cow are in very good stock, and we notice a meagre demand. Last sale was at 65 cents & bushel.—RICE.—The market continuse to be pretty well supplied with clean, and only a retail demand exists. See table for quotations.

HAY .- No change of importance to note in this article; market well supplied, and demand light. A lot of 250 bales Northern make was received in the early part of the week. and changed hands at 50 cents \$2 100 lbs., 90 days. LIME.—None received for the past week or two, but we notice a good stock in dealers' hands, and the marked rules

dull. Selling in the small way from store at 90 cents a \$1 39 cask, as in quality. Molasses .- But little demand exists for this article; the stock of Cuba has become pretty much worked off in the absence of receipts. We refer to our table for store rates.

Brown.

Schr. Dolphin, Charlotte, from Little River, to DeRosse

the demand is light. We quote from carts at 70 a 80 cents bushel. In Irish we have nothing new to report. There E. Hall. scarcely any demand, and the market is very well supplied. We quote from store at \$2 25 a \$2 50 \$9 bbl., as in quantity. Provisions-For N. C. cured Bacon the market has ruled decidedly dull for some time past; the receipts continue noderate, and in the absence of sales the stock in first hands has accumulated, and is at present quite heavy. The demand is principally for small lots from consumers, as dealers show no disposition to operate unless at

lower prices. We quote nominally at 124 to 13 cents for hog round, and 131 a 14 cents # B. for hams. For Western cured the market has also ruled quiet during the past week, as we notice merely a retail demand, and prices are a shade ower; fair stock in first hands. We quote small sales from store at 8 a 82 cents for shoulders, and 10 a 102 cents # 15. for sides, according to quantity.----LARD-The demand for this article has been very light for some weeks past, and the supply is fully sufficient for present purposes. We quote N. C. make at 13 a 13 cents, and Western at 12 a 13 cents Northern is in fair stock and demand limited. Small sales from store at prices ranging within quotations. See table.

1 b.—the latter figure for an extra article.——PORK— SALT .- No arrivals of Liverpool ground since our last reriew; market moderately supplied, and only a light demand exists. The lot of 1200 sacks reported in our last as on market, changed hands at 85 cents \$\mathbb{P}\$ sack, 90 days. Alum Flanner; with naval stores, &c. continues in good supply, and sells from store at 25 cents per bushel, in quantities to suit. SHINGLES.—Dull. Sales of one or two small parcels of ell; with wheat and naval stores. Common at \$2 25 per M.

Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Bærhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

There is no use in attempting to conceal the fact that manner of considerations.

Now, that there should be men in the ranks of the temnors of Bogic appear to be the best of the lot. Democratic party whose devotion to that party and its whose devotion to their own advancement is still more til some occasion arises upon which they are led to think, they may succeed in controlling the Democratic organiof power, and, by uniting-fusing-with the opposition, themselves and their new allies, while they strike a blow at their former friends.

This is an old story. It always has been so, and we rather think it always will be so, in spite of the warning which the political history of the country ought to afford to this class of politicians. The wrecks which they The "denturial operation" is to be performed upon unhave left ought to deter others from approaching too near to the rocks upon which they have split.

Forney and others of wholly without systematic labor. his prominent partizians in Pennsylvania and elsewhere, compel us to regard the movement of which he is the ing quite favorably. We have heard that Mr. Marhead as antagonistic to the purity of Democratic principle-destructive of Democratic organization,-calculated, if not designed, to jeopardize Democratic success.

That such will be the immediate effect in Pennsylvania, at the election to be held there on the 15th, we feel no sort of doubt; but, on the other hand, we feel as little doubt of the reaction which will be certain to follow before the great contest of 1860; and the force of that reaction will be in exact proportion to the firmness with which the Democracy adhere to their principles in the hour of temporary defeat. The Democracy has seen many a darker hour than this, and has come forth into the broad light of victory. All the difficulties in its path are nothing, compared with those surrounding the opposition, composed, as it must be, of the most discordant elements.

The course of Mr. Douglas, as well as the turn affairs have taken in other respects, seem to point to the selec- where we can note the immense quantities of Cotton tion of a Southern man as the candidate of the Demo- piled up and constantly arriving, far beyond all former receive a fair remunerative compensation for their great cratic party at the next presidential election. We trust that the deliberations of the Charleston Convention may so eventuate. The Democrats of the South have time and again stood up manfully to Northern candidates; let us see now how the North will stand up to a Southern man.

The precise form the opposition may assume is more than we can say. Whatever the form may be, the substance will certainly be Northern and anti-slavery. We are satisfied that the Democracy should be neither Northern nor Southern, but constitutional.

The news from California comes like a wet blanket upon the bolters. Bully Broderick, McKibben, and their crowd are pretty effectually "crushed out "ground to powder-nowhere, in fact. Poor old Foote comes home from being a Know Nothing in California, to ventilate his true Democracy by abusing Mr. Buchanan. He foretells great things in California, and great things do happen, but not the way the traitors meant, by considerable, if not more. Poor fellows, we feel for them, but we know it serves them right, and it may do them good, all but old Foote, and he's past redemption.

The "Me, I, Myself" tone of some politicians of the class to which we allude, is more than a little amusing. They have an idea that they can do what no man ever yet could do, successfully, and that is to array himself against a great party, a great principle, or a great measure founded upon principle. Why, when Mr. Benton himself, whose services had been those of a statesman and a man of great genius, whose party and personal standing was high and undisputed, permitted the "Me, I, Myself" feeling, the vanity of egotism and the worse any attempt to raise it must be at the risk; indeed alfolly of personal spite to control him, even he fell without power or influence—not forgotten, to be sure, for his talents, and the real power of his character forbade that; but excluded from the Senate of which he was the Nestor, repudiated by the State he had represented for thirty years, with little or no position in the Democratic party of which he had been one of the most trusted.

And yet Mr. Forney and Mr. Foote and Mr. Broderick, and such like, think that their little cock-boats can ride out the storm that wrecked the stately first-rate of the great Missourian. There was temper, egotism, anything you please, with Benton, but he was no trickster, no office-hunter. His aberrations were free from that taint. The present crop of disorganizers cannot hide their motives nor their feelings from the public, nor can the greater name of Stephen A. Douglas shield them

The power of even the feeblest agency, when exerted in support of a good cause, cannot be lightly estimated -the vanity of even the most adroit managers, in seeking to elevate movements based upon their personal spites or ambitions, into the dignity of opposition to a great party and great principles, is too absurd to awaken other feelings than those of contempt.

From the St. Louis Republican, Sept. 22. Gov. Floyd and his Mule Contracts.

On my return to the city, my attention was directed to an editorial article in the Democrat, commenting, in its usual reckless and malicious manner, on the conduct of the Secretary of war, for having given out certain contracts for the purpose of enabling the army to take up its line of march for Utah. To gentlemen who are well acquainted with that misnamed paper, the Democrat. its feeble, malicious abuse of men and measures is always regarded as a compliment. But there are some honest republicans in this section of the country who look to it as a political text-book, and to such a brief

explanation is deemed necessary.

To ridicule the Mormon expedition and to sneer at the administration for wasteful extravagance in sending troops to maintain the supremacy of the law and protect the lives and property of our citizens passing through that lawless region, is now a favorite occupation with the Democrat and its black brethern throughout the country!-when their own columns will show that they were the most clamorous in demanding the scalps of Brigham Young and his followers even including his wives!-But the war is happily ended, and now the administration is slandered and denounced for carrying out the policy which they so urgently demanded. But let us examine the contracts which the Mormon expedition

necessarily produced. Every intelligent man knows that, after the movement of the troops was ordered, the quartermaster's department (upon which the heavy burden of the expenses rested) was for the time being entirely destitute of funds; even the teamsters employed about the military posts could not get one dollar of their hard-earned wages! In fact, the department had neither money nor credit. The deficiency bill lingered in Congress, and it was very questionable whether it would pass during the session. In this emergency, what was to be done-abandon the expedition, or devise ways and means to push it for-

What would the democrat and its kindred fault-finders have said had the latter alternative been adopted? leave the answer to any reflecting mind. It having been determined to maintain the honor and dignity of the government by pushing foward the troops with as little delay as possible, in order to relieve Gen. Johnston Handkerchiefs—5 " 12,896 Haberdashery—13 boxes containing 5,625 dozen 1,172 Handkerchiefs—5 " 3,200 " 798 little delay as possible, in order to relieve Gen. Johnston from his embarrassing position, the law made it the dutv of the Secretary of War to provide the means. The quartermaster's department had no means, and Congress would not furnish any! In this embarrassing state of ward and proposed to furnish the horses, mules, &c., and await the action of Congress for the refunding of the arge amounts of money which we would necessarily have to raise on our own individual accounts. The Secretary of War very gladly accepted the proposition, and immediately instructed the quartermaster at Fort Leavenworth to purchase and receive from us the number of horses and mules deemed absolutely necessary for the outfitting of the expedition.

No price for the mules was agreed upon, as there were no data at that time by which the value of such mules as were required by the department could be ascertained. It was simply understood that the contractors were to

outlay of money, time, risk, and incidental expenses. Owing to the quantity of the mules required, and the rigid and, as we contend, unreasonable and unfair mode of inspection adopted by the quartermaster at Fort contracts. The price fixed by the quartermaster at Fort Leavenworth was wholly inadequate and would have subjected the contractors to ruinous losses. All they could do was to appeal to the Secretary of War or common justice! Governor Floyd very wisely deorca, and the Canary Islands, will hereafter be as foltermined not to take the responsibility of deciding the case upon the statements of interested parties. But, being determined to do justice both to the government and contractors, he ordered a board, consisting of three officers of high rank and character, to assemble at Fort cavenworth to carefully investigate all the facts in the case and report to Washington city. In pursuance of this order the board met, and, after a patient and laborious investigation, reported in favor of the contrac-

The above is a brief, plain statement of all the facts in the case, and the Democrat, together with the sable

the Secretary of War or the mule contractors. In commenting upon the proceedings of the board, and he evidence brought forward during the investigation, the Democrat flounders through many columns of its dirty sheet in trying to make up something against the administration, and hopes the matter will be investigated by a committee in Congress. If the party in Congress to which the Democrat belongs cannot find better material than this out of which they hope to make coun-terfeit capital, I presume they will find it both to their nterest and credit to attend to the business of their con-

The Democrat thinks Captain Van Vleit could have made out a strong case against the Secretary of War if he could have commanded the attendance of witnesses. In this particular he was placed precisely in the same category with the contractors. Witnesses on either side attended, or gave evidence, just as it suited their much might be proved by officers of the army, who were

designedly sent off to Utah to be out of the way. The editor will probably be surprised when he learns that two out of the three officers composing the board who knew full as much in relation to the matter as any examined? They would cheerfully have testified had they have known anything that could have inured to

the benefit of the government or a brother officer. The truth is, the Democrat has made a goose of itself, and, if it possesses one particle of magnanimity, it will at once-after learning the above facts-make an ample apology to the Secretary of War; if it does not, I will relate an anecdote about the Hon. Frank Blair's interfering with mule contracts in Washington city last winter.

Lest night a tall man, with rather a stooping gait, and about 60 years of age, entered a public newsroom at the West-end of the metropolis. He was dressed from head to foot in a suit of shepherd's plaid, and carried a small carpet-bag. From long exposure to wind and weather his features were well bronzed, and his appearance, which in such a place was rather calculated to attract notice, suggested the notion of a highland sheep farmer. To every person in the room, save one perhaps, he was an utter stranger, and yet he has a reputation which of its kind may be said to have been at one time, if not now,

and those of his confederates were a theme of conversation throughout all Europe, and his presence was so much in demand in this metropolis that the Government offered a reward of £2,000 for his capture, and the Whichers, Williamsons and Fields, with the rest of the detectives here, on the continent, and in America, were upon his trail night and day. He contrived, however, to baffle all attempts at apprehension, and now—the storm over, the prosecution against him abandoned, and the reward withdrawn, the fugitive from justice returns to his native country a free man; and one would hope, a sadder and wiser one. By this time the reader will have anticipated the denouement of our story, and will be saying to himself, " It must be Allsop." Exactly so. The man with the carpet-bag" is no other than the veritable Thomas Allsop.

He it was, as we all remember, who one day in December last wrote and despatched a little missive from Ginger's Hotel, Westminister, to a Mr. Taylor in Biringham, ordering the manufacture of certain small articles, which were subsequently used with such disastrous effects on the memorable night of the 14th of January, in the Rue Lepelletier. He it was also who began the new year of 1857 by inditing another epistle, now matter of history, to his quondam friend Dr. Bernard, applying sundry complimentary epithets to the Emperor of the French; who again in the autumn of last year raised £4,500 by mortgage upon his property in Surrey, which in considerable part furnished the sinews of war to Orsini and his confederates; and who furnished the passport, given to himself in 1851 by Lord Palmerston, to Orsini, by which he was enabled to travel from this country to Brussels, and thence to Paris, on the murderous enterprise which inflicted death on several innocent persons, cruel injuries on many more, and the forfeiture

of his own troubled existence by an ignominious death.

There is no doubt that Mr. Allsop has been in London for a week or two, though he has escaped observation until now by all save his own immediate relatives and a few others. It is said that on quitting this coun- 2nd try he weut first to the United States, and after remaining there some time proceeded to Mexico, and thence to California. From California, as soon as he found it 2nd was safe for him to do so, he returned to England. Mr. Allsop was at one time a member of the Stock Exchange, and resided at Nutfieldhouse, near Reigate, his own property. He formerly lived at Redhill, in the vi- 3d

In 1847, when Feargus O'Conner propounded his small allotment scheme, he adopted the views of the Chartist leader in that respect, and joined in submitting the project to a practical trial on the estate at Redhill, but it failed, as it did everywhere else. It is understood that Allsop censures the negligence of Dr. Bernard in not destroying the famous letter which he addressed to him on the 1st of January, 1857, and which, it will be remembered was used as evidence against both parties on the trial of Dr. Barnard at the Old Bailey.

Galway and America... The Irish Linen Trade. The Belfast Mercantile Journal remarks, in relation to the growing trade between Ireland and America, as fol-

Already the fruits of a direct trade from Ireland with the United States are apparent. A stocking factory has just been opened in Galway, for the purpose of supplying the States with cotton stockings, and it is expec that a large trade will be carried on, as the facilities of labor and water-power cannot be surpassed. What is to prevent Galway speedily becoming an important man-ufacturing town. She possesses a super-abundance of water-power, and superior advantages for the establish ment of factories; and we have no doubt that, ere long, nany persons will be found anxious to take advantage of them. It is now quite evident that the opening up of this line will produce a large export trade in Irish produce. Whiskey, porter, ale, and butter, have already been largely exported. I'he Americans are very badly supplied with the latter article, and of a quality so inferior to the Irish, that it is reasonable to expect a constant and increasing demand for it."

The promoters are confident that from the tollage of ships alone, without taking other sources into consideration, they will, independently of the interest of 5 per cent., obtain very large returns, and expect, in two years, to establish a communication sufficient to allow nine-tenths of the present sized vessels to pass, and that, Wine,... A SCENE ON THE GALLOWS-The Baltimore Sun says: We have already briefly mentioned that P. S. Turley, formerly a clergyman, was executed on Friday week in Kanawha county, Va., for the murder of his wife. On the gallows he made a speech, attributing the commission of the crime to his intemperance. The Ka nawha Star says: After speaking he requested that "Jerusalem, my happy home" might be sung; he said that many pres ent had sung it with him on more happy occasions. started the tune himself. While singing, he called his aged father on the platform, threw himself upon his neck, interrupted his singing only long enough to say farewell," and then continued to take the lead. His mother, with his little daughter, came forward at his request, and he shook hands with her, and took his little one in his arms, kissed it, and all without seeming to be interrupted. So also with a brother. They all left the ground before he fell. He also, while singing, shook hands with some twenty others. Among them two of the brothers of his murdered wife. He had a smile on his face most of the time. There were but few dry eyes on the ground during the scene. When they ceased singing, he turned about and said, "Sheriff," I am ready to die," and soon after the rope was cut, and the unfortunate man launched into eternity. SHERIFFS AND TAXES .- Last Thursday, (Sept. 30th) was the last day allowed by law to the various sheriffs for settling their tax accounts with the Comptroller of State, that being the last day of the fiscal year of our State government. pr. J. WILLIAMS, Chemist and Pharmaceutist, after studying closely the practice of Drs. Abernethy and J. Johnson, England and observing the nature of the disease in all its stages, during a sojourn in the Southern and western portion of the United States, where it prevails to a greater extent than elsewhere, procured from South America, certain roots and herbs, from which he prepared an "Elixir;" which, after eighteen years' use in private practice, has provied itself more efficacious in the cure of Dygnepsy, thankary medicine that has ever been prepared in any age or any clime, for the same purpose.

medicine that has ever been prepared in any age or any clime, for the same purpose.

Having submitted it, with an explanation of its components to a number of Physicians of Philadelphia, among whom were the late Drs. Joseph Hartshorne, and J. C. Morton, it has received their entire approval, and many of the Medical Faculty are now not only prescribing it for their patients, but are using it themselves personally, and in their families. As a tonic, it is unequalled, and its properties are of so invigorating a nature, that it is given with perfect safety and success to the most tender infants.

The "Elixir" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucous membrane of the stomach, and requires that only one dose be taken in twenty-four hours for confirmed Dyspepsy can only be cured by gradually restoring the organs of digestion to a healthy state. The great success met with in curing the most aggravated cases of Dyspepsy, accompanied sometimes with a high grade of hypochondriasis, has established the most unbounded confidence in the curative properties of this "Elixir," in corroboration of which read the following testimonials.

The dreadful sufferings I endured from Dyspepsy I cannot describe; but I am confident that without the use of your "Elixir," I should be in my grave. I assert that I solemnly believe your "Elixir" has saved me from an early death. I continue now in the enjoyment of most excellent health.
